

SC

Sustainable Communities: The convergence of Green Building and Smart Growth

Please join Sustainable Connections, the City of Bellingham, Whatcom County, the Port of Bellingham, the Urban Land Institute and the Cascadia Green Building Council for a look at building a more livable vibrant community by promoting:

- More Livable Communities
- Revitalized Urban Areas
- Reduced Land Consumption
- Less Car Dependency
- More Pedestrian Activity
- Increased Green Building Practices

Measure Progress: LEED-ND™ (for Neighborhood Development) - a new standard for assessing and rewarding environmentally superior development practices.

Thursday, June 29th 7:00 to 9:00 pm
Bellingham Cruise Terminal

FREE and open to the public

Speaker Bert Gregory, President & CEO of Mithun Architects and LEED-ND Steering Committee member. Bert will be joined by Susan H. Jones, Architect, Bellingham native and LEED Accredited Professional, who will give a presentation on successful international master planning efforts.

Special Perspective: Hear how LEED-ND™ might be applied to the 'New Whatcom' waterfront redevelopment plans.

Details at Sustainable Connections -
